PREFACE.

The measure of a town's progressiveness is the growth of its banking business. The banking resources of Wilmington have grown 340 per cent in the past ten years.—(Now over $12,000.00.)

An indication of the business of a town is the growth of its Post Office receipts. The post office receipts of Wilmington have increased over 247 per cent in the last ten years—(Now over $105,000.)

The proof of the growth of a seaport is its increase in imports and exports. The imports and exports of Wilmington have increased in the last decade 2147 per cent—(Now over $28,000,000.)

This is sufficient proof of our rapid and substantial growth. The following are twelve of the many reaons for it, and will show why we expect to double our population in the next ten years:—

1. Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all of New England had only one such distributing seaport, and it will then be realized why Wilmington must grow, and is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

2. Wilmington has the freight facilities of six lines of railroads, competing with water rates. Vessels come here from all parts of the world, our wharves accommodating ocean steamers drawing 24½ feet. Our channel will soon be deepened to 30 feet.

3. From the Middle West, the Panama Canal will be in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington will not be subject to the dangers of Cape Hatteras.

4. The projected Coastal Inland Waterway moves directly by Wilmington, and has already been completed to Beaufort, N. C.

5. Wilmington is the center of the greatest vegetable producing district in the United States. A few years ago no strawberries were raised except for domestic use; now WILMINGTON IS THE LARGEST STRAWBERRY RAISING DISTRICT IN THE WORLD. It is the LARGEST LETTUCE PRODUCING DISTRICT IN THE WORLD, and next to the largest peanut market.

6. WILMINGTON IS THE SECOND LARGEST COTTON MARKET ON THE SOUTH ATLANTIC SEABOARD, and the FOURTH LARGEST EXPORTING COTTON MARKET IN THE WORLD.

7. Our "Back Country" strength: There are within 50 miles of Wilmington over one million acres of idle land having the finest grade of soil type found in the Atlantic Coastal plain. In addition, there are available large ares of land of somewhat less valuable soil types but which are also highly suitable for agricultural uses. On the fine sandy loam with clay subsoil, a farm population of a half million could easily be supported, and an urban population of a quarter of a million in cities and towns.

8. Wilmington has eleven Building & Loan Associations, showing the thrift and industry of its home-builders.

9. Wilmington is that point on the Atlantic Coast where there is neither extreme heat nor excessive cold. A case of death has never been caused by sunstroke or by freezing.

10. Wilmington is the only point on the Atlantic Seaboard which is both a winter and a summer resort. Its mild winter months are the delight of Northern tourists, while the cool, invigorating summer season attracts travellers from the South, the location of Wilmington being easily accessible from both Northern and Southern states.

11. Wilmington is within ten miles by trolley of Wrightsville Beach, the most attractive seaside resort on the Atlantic Coast.

12. Wilmington has factories, oil mills, cotton mills, lumber mills, machine shops, cotton compresses and many miscellaneous industries, but it wants more of them.

In this small space it is difficult to enumerate the advantages of Wilmington and its surroundings, but enough has been said to show its remarkable progress beginning with the "Awakening of the South." The reasons above stated, coupled with our great natural advantages will compel people to come here when these advantages are known. And to call attention to these advantages is the object of this advertisement.

Every inquiry will receive prompt attention from that member of the chamber of Commerce most competent to deal with each specific case. We want energetic men in every line of business from every part of this country, and will extend to them a hearty welcome and our earnest co-operation.

Many new people have come to our section bringing with them valuable ideas and new methods. This is the kind of people we want, and this is the kind to whom our unexcelled and unexploited resources will bring prosperity and wealth.

Address:

Chamber of Commerce, Wilmington, North Carolina.

OUT-OF-TOWN WORK SOLICITED

201-207 Governor St.
RICHMOND, VIRGINIA

If 9,896 Farmers

and planters told you that their yields per acre of cotton, corn, tobacco, wheat, fruits, peanuts, rice, sugar cane and truck crops were greatly increased and even doubled

By Using

Virginia-Carolina Fertilizers

and which they thought the best and biggest crop producers on earth—wouldn't you feel that you should, in justice to yourself, try these fertilizers and get the same increased yields on your own farm? We have many thousands of un-asked-for letters from farmers blessing the day they bought Virginia-Carolina Fertilizers. Many of these letters are in our 1910 Farmers' Year Book, which can be had free of your dealer, or by mailing us the coupon
